SYDNEY CLINIC PARTNERSHIP

Pitch Ready REC

An annual return-to-sport testing partnership for Sydney clinics — gold-standard data for every patient you treat.

Unlimited RTS Testing

For every patient you treat

72-Hour Clinical Read

Recorded video + recommendations

Bi-Annual Workshop

4 hrs practical with Tim McGrath

Commercialise Your RTS

Charge your patients as you see fit

Pitch Ready® 2026

The Problem

Gold-standard return-to-sport testing — **3D biomechanics benchmarked against a large normative database** — sits out of reach for most clinics.

Capturing robust data, running the analysis pipeline and holding the normative benchmarks is **heavily specialised**. So RTS decisions get made on **capacity-based measures & leg symmetry** — which isn't best practice.

What that actually takes

3D motion-capture & lab	Capital outlay
Validated normative database	364+ metrics
Specialist clinical interpretation	Expertise
Significant capital plus specialist expertise — out of reach for most clinics.	

THE RESULT

Return-to-sport clearance made without the evidence to back it.

The Solution

Unlimited RTS Testing

- Gold-standard **ACL & lower-limb** benchmarking
- Every patient vs **364+ normative metrics**
- Captured, processed & analysed **onsite at Zetland**

72-Hour Clinical Read

- **Recorded video read** within 72 hrs of testing
- Practical recommendations from our **Sports Physiotherapists**
- Evidence to support your **RTS clearance** decisions

Bi-Annual Workshop

- 4-hour practical with **Tim McGrath (PhD)**, twice a year
- Understand & **apply the data outputs** with patients
- Up to **2 participants** per session, per subscription
- **Over A\$1,000 in value** — upskill staff in best-practice rehab & RTS processes

Commercialise Your RTS

- **Charge your patients** as you see fit
- Own the client relationship & **clearance decision**
- Turn gold-standard testing into a **revenue stream**

One fixed annual partnership

Unlimited RTS testing · you set your own patient pricing

A\$7,150 /year

SAVE 20%

2-year sign-on — the lowest-cost route to gold-standard RTS testing.

IDEAL FOR

ACL rehab

Post-op RTS

Recreational athletes

Capture, analysis and the clinical read — delivered **end-to-end** from Pitch Ready's Zetland facility, for physiotherapy practices & rehab centres across Sydney.
